Discussion of systems for managing workforce and risk prevention:

With a presence in over 35 countries, we are able to serve clients around the globe. Leveraging technology, collaboration and anchored in a common global set of associate behaviors, our associates work effectively across borders in pursuit of Cerner's mission. We recognize and value diversity in our global workforce and take a global lens to equity and inclusion in all countries in which we operate, as described earlier in this report. Our human resources programs and processes, including associate recognition, performance management, associate surveys, town halls and job framework, enable us to create a consistent global associate experience at scale, while allowing for customization at the country or regional level where appropriate. We supplement our global approach with locally relevant programs and policies that help us recruit and retain top talent in all our locations. We behave with integrity in everything we do, and that includes complying with local laws and regulations, maintaining strict policies around data protection and enforcing a program of mandatory compliance training for associates.

Social (continued)				
SASB TC-SI-330a.2	Employee engagement (%)	74%	68%	See discussion
	Discussion of employee engagement: Prior to 2020, our annual employee surveys were developed and administered internally. In 2019, we engaged with Korn Ferry to enhance our employee engagement survey methodology. The result of this collaboration was our 2020 organizational health and engagement survey, delivered via the Qualtrics survey platform. Our 2020 and 2021 engagement index was calculated as the percentage of associates who responded Agree or Strongly Agree to the statements “Cerner motivates me to do more than is required,” “I feel motivated to do more than is required of me,” “I feel proud to work for Cerner,” “I would recommend Cerner as a good place to work” and “Given your choice, how long would you plan to continue working for Cerner” (with 5+ years viewed as favorable). Due to the change in survey methodology, our 2019 engagement metrics are not directly comparable to those from 2020 or 2021.			
	Inclusion index (%)	79%	73%	N/A
	Discussion of inclusion index: In 2020 and 2021, our organizational health and engagement survey included a validated index for inclusion against which Cerner is measuring the health of our workforce and driving improvements in leadership behavior. Our inclusion index for 2020 and 2021 was calculated as the percentage of associates who responded Agree or Strongly Agree to the statements “I feel a sense of connection and belonging at work,” “Opportunities for advancement are available to associates regardless of personal background,” “The people I work with discuss and debate issues respectfully to get better results” and “I can freely express my voice without fear of negative consequences.” In 2021, a quantitative Organizational Health metric was added to performance-based cash compensation for our Named Executive Officers (NEOs) to directly link their compensation with key organizational objectives, including attracting, engaging and retaining top talent and continuing to cultivate a highly diverse and inclusive workplace.
