Protect more. Worry less.

We know security. We also know protecting critical health care infrastructure and patient health information has never been more important. That’s why we offer peace-of-mind data protection and enterprisewide system security, so you can focus on what matters most—patient care.

Experience provider-focused data defense you can trust.

Today’s challenges

1. Lack of resources and cybersecurity skills in the health care industry.
2. Limited funding available for an effective cybersecurity program.
3. Established governance risk and compliance program aligning to industry standards.

Helping protect enterprisewide data with a customized cybersecurity program, tailored to meet your needs.

Cybersecurity Assessment & Consulting
- Risk Assessments
- Consulting Services

Identity & Access Management
- Workflow Authentication (EPCS)
- Cerner Instant Access™
