Cerner COVID-19 Initiatives
Supporting you while you care for those in your community

Cerner has announced several initiatives to reduce the financial burden for your health systems as you respond to COVID-19.

- **Cerner Assist**
  If your organization is experiencing a staffing shortage or technology limitations while responding to the COVID-19 pandemic, Cerner Assist provides temporary, discounted services for help desk support, application management and technical support.

- **Cerner mobility offering**
  To help facilitate mobile workflows and communication, we are extending the number of licensed users, without cost for existing mobility clients, on a select group of mobile apps during this time.

- **Collaborating with our clients and the U.S. Centers for Disease Control and Prevention**
  Cerner is working with the U.S. Centers for Disease Control and Prevention (CDC) and other public health agencies to supply relevant data to aid the federal government in its COVID-19 response. At no cost to you, and with your consent, we are working with the CDC and the National Healthcare Safety Network to provide voluntary and mandatory reporting to ease your reporting burden.

• **Cerner Real-World Data and HealtheDataLab**
  In alignment with our larger *Cerner Learning Health Network*SM initiative, Cerner is offering eligible health systems free access to a COVID-19 data science workspace for academic projects. To apply for this offer, a research application needs to be submitted; if selected, a Data Use Agreement will need to be signed.

• **Consulting**
  We are offering reduced rate services to assist Cerner clients with surge-related needs, including: screening and testing, facility expansion, capacity management and device connectivity.

• **Soarian**
  To support our *Soarian* clients in need of expanding critical care locations or device connectivity, Cerner is waiving license, configuration and support costs related to COVID-19 expansions during the pandemic.

---

*All Solution/services under development. Cerner makes no assurances that the capability described herein will be provided in the solution/services.

---

**About Cerner**

We’re continuously building on our foundation of intelligent solutions for the health care industry. Our technologies connect people and systems, and our wide range of services support the clinical, financial and operational needs of organizations of every size.
